

Acacia Wood

Acacia Bowls

Hand turned from a single block of acacia

Our Acacia Wood bowls feature rich, sweeping grains and are the highest quality bowls available. All of our bowls are hand-turned from a single block of Acacia, making each piece a true work of art. These skillfully handcrafted bowls showcase the rich contrasts of color and grain that are intrinsic in eco-friendly Acacia Wood.

Acacia Wood

South Seas Native Treasure has been delighting its customers with quality products for over 40 years. Recognized as the premier manufacturer and exporter of Acacia Wood products in the Philippines, our master artisans hand turn each bowl, plate and dish from a single piece of acacia wood, turning out products that are as known for their durability, sophisticated style, lustrous finish and intricate grains.

All of our woods are ecologically forested from private lands and are certified by the Department of Environment and Natural Resources. Acacia wood is fast growing and non-endangered.

The company is located in Laguna Technopark in the city of Biñan, an hour's drive south of Manila. In 2010, South Seas Native Treasure became a registered member of the Philippine Economic Zone Authority (PEZA), which champions outstanding companies specializing in export manufacturing. Over 90% of our products are made for export and we ship product to customers in Europe, Asia and the United States.

As an export company, we understand the needs of our foreign customers. Each product is individually wrapped and hand inspected prior to shipping. We use high quality shipping boxes and have the ability to print and apply customer specific barcode labels and product tags.

At South Seas Native Treasure, we build long lasting partnerships by delivering the right products, complete and on time. *Mabuhay!*
